

WEB is about Creating Magic for our 7th Graders!

Imagine a School Where:

Everyone knows your child's name

We learn and laugh together

People are positive and encouraging

WEB is about building relationships and encouraging participation

WEB changes relationships between 7th graders and their school

WEB sets the tone for the year

WEB Leaders (8th graders) model behavior and positive attitudes

WEB is a program focused on the whole-child

In schools where the WEB program is facilitated:

- Decrease in Tardies
- Reduction in D/F Grades on Report Cards
- Decrease in Suspensions and Referrals
- Improved Student:Student & Student:Staff Relationships
- Improved Parent Satisfaction
